- > 🔥 Natural Disaster or Unnatural Design?
- "FOR THOSE WHO HAVE EYES TO SEE: The California Wildfires Are Not Just Physical Destruction but a Spiritual Reckoning, Signaling the Rise of a System Devoid of Morality, Freedom, and Humanity":

(Excerpts:) "The California wildfires of 2025 are not merely a natural catastrophe—they are a <u>deliberate and sinister act of sabotage</u>, <u>orchestrated by</u> the globalist elite to reshape the nation according to their dystopian vision. These infernos serve as both a warning and a weapon, heralding a future where freedom, private property, and individual rights are extinguished in favor of a one-world agenda. The flames consuming California are not an accident but a calculated move in a larger game...While California burns, Florida faces a more insidious assault. The "Live Local Act" has overridden zoning laws, stripping communities of their ability to govern themselves. Public meetings are shut down, and citizens are silenced, particularly those advocating for America First policies. Unlike California, Florida's dispersed population makes it less vulnerable to the dramatic tactics of fire and chaos. Instead, the globalists have adopted a slower, more methodical approach, chipping away at individual rights and local governance. But the end goal remains the same: complete subjugation of the people under a globalist regime...If the globalists succeed, America will be unrecognizable by 2028. Los Angeles, the so-called city of angels, will be transformed into a city of shadows. Trees and wildlife will be eradicated, and residents will live in concrete prisons, their every move monitored and controlled. Automobiles, fossil fuels, and private property will be relics of the past. This is the Luciferian vision of a one-world government: a society where individuality is crushed, freedom is a distant memory, and humanity serves only the agenda of the elite. But as Revelation assures us, this vision is not the end. Babylon will fall, and its architects will face divine justice...The fires in California are a wake-up

call for the entire nation. This is not just a regional disaster—it is a national crisis and a global warning. The globalists aim to dismantle America piece by piece, using every tool at their disposal, from fire and legislation to propaganda and suppression.":

And it may have to do with UN Agendas in ways previously unconsidered by most. Here's why. Over 45,000 square MILES have been burned, or 29% of the entire state of California This is a land area which equals: > 100+% of each of entire states of IN, OH, VA, TN, ME, SC, WV, MD, VT, NH, MA, HI, CT, DE, AND R, as well as 92% of NORTH CAROLINA, and 91% of FLORIDA. The destruction in this burn is over 2.5 times the size of Manhattan. As if that weren't horror enough, we're learning about what the Los Angeles and State officials are really up to. The acting mayor of LA, MARQUEECE JOHNSON, waited 6 1/2 HOURS after Pacific Palisades had become an inferno, to issue a Local State of Emergency!":

> 💥 "The planets are aligning in a rare phenomenon in January... here's what it means for YOU" - The full moon in January 2025, also known as the Wolf Moon (which is the name given to the first full moon of a new year), was on Monday, 13 January 2025, and the moon was in the seventh house on that same day. "When the moon is in the Seventh House and Jupiter aligns with Mars" (lyrics from the "Age of Aquarius"). "And there shall be signs in the sun, and in the moon, and in the stars; and upon the earth distress of nations, with perplexity; the sea and the waves roaring." (Lk.21:25) (Excerpts:) "Leading up to January 21, six planets will be in a 'planet parade' with four of them visible to the naked eye. While 'planet parade' isn't necessarily an official term used by scientists, it's the colloquial phrase for the simultaneous appearance of several planets in the sky...Another important alignment this month is the New Moon on January 29, according to astrologer Lisa Lazuli, when the New Moon in Aquarius is conjunct Mercury and Pluto in Aquarius. 'The New Moon conjunction with Mercury and Pluto in Aquarius is **extremely innovative** and foretells of scientific discovery, breaking of taboos and technological advancement indicating the stage is set for Al adventures this year, 'she adds...The planet parade will continue into late February...Mercury will even make a brief appearance, making it the seventh planet to be in the sky at once. On February 28, Mercury will be most visible on the western horizon right after sunset, with Venus above it and Jupiter, Mars, and Uranus placed high in the southeast.":

(Excerpts:) "Last weekend, <u>US proxies launched a drone attack on a critical part</u> of the TurkStream gas pipeline located in southwest Russia. The incident was largely ignored by the mainstream media, but its importance to energy starved Europeans cannot be overstated. The attack is clearly a continuation of the same hostile policy that led to the sabotage of the NordStream pipeline. (Note — The biggest act of industrial terrorism in history.) The strategic objective of these attacks is to isolate Russia by blocking all attempts at economic integration in order to divide the world into warring blocs. This process of 'decoupling' is intended to portray Russia as an emerging threat to the West thereby justifying Washington's covert operations...These unprecedented acts of industrial sabotage help to show the desperation of western elites who see covert acts of terrorism as the only remedy to the erosion of their global power and their accelerating slide towards economic collapse. The sharp escalation of hostilities in Ukraine, the Middle East and the Taiwan Strait all indicate that US foreign policy mandarins have settled on war as the only remedy to their increasingly precarious financial situation...[Regarding the ceasefire mirage!:] a temporary lull in the action that will provide legal cover for officials in the exiting administration while burnishing Trump's image as a 'strong leader'. (Two birds with one stone.) And while Netanyahu has no intention of stopping the war until his plan for <u>Greater Israel is achieved</u>, he does need to address the political (and legal) requirements of his benefactors in order to express his gratitude for their 'unconditional' support...As anyone who follows politics knows, Israel has a stranglehold on the White House, the foreign policy establishment and both Houses of Congress...Trump will be taking his marching orders from Tel Aviv just like every other president for the last 50 years...while the genocide continues in Gaza, and Israeli airstrikes persist in Lebanon, and sectarian warfare escalates in Syria, and the US and UK continue their bombing of Yemen; the battlespace is being prepared for an even bigger and more cataclysmic event; preemptive airstrikes on Iranian oil fields, nuclear sites and critical infrastructure. That is what's in store for all of us in the months and years ahead if Israel is not stopped. And with Trump taking office on Monday, the chances of stopping Israel are worse than ever.":

 "Romanians Firmly Refuse to be the Next Cannon Fodder in NATO's Endless Wars." - This refusal is coming up against what I posted in a KU last year, that NATO had already begun expanding the Mihail Kogalniceanu base in Romania into becoming the largest NATO military base in Europe! (Excerpt:) "Ever since Romania became part of NATO and the European Union, it's been slowly stripped of its sovereignty. Although the country wasn't ready, EU accession was fast-tracked due to its crucial geostrategic position, enabling power projection across Eastern Europe. This was particularly important to the United States, which wanted to establish its so-called 'missile defense shield', which is essentially a laughable lie, as no ABM (anti-ballistic missile) system can reach Russian ICBMs (intercontinental ballistic missiles) from Romania...Many in Romania understood that they were to play this extremely unflattering role. Thus, as anyone remotely sane would do, Romanians effectively told NATO to go pound sand, as evidenced by the recent election results. However, the world's most vile racketeering cartel doesn't give up that easily. The unelected EU bureaucrats then annulled the Romanian election results because of 'evil Russians'.":

[Spoken like a Luciferian lunatic!! Is that taking a page out of Satan's insane servant Gatesofhell's playbookz? 'Our plan will make Britain the world leader. It will give industry the foundation it needs and will turbocharge the "Plan for Change", says Starmer. Claiming that the plan for change is about 'more jobs, more investment, more money in peoples' pockets and the transformation of public services.' But we all know what 'The Plan for Change' really is: the Great Reset's grand theft of people's privacy, property and positive mental health...So, time to come forward all good British defenders of the beauty of the rolling hills and dales of this ancient sacred land. > "We're in for a lot for 2025" - KURC:

"We're in a five-year cycle now that doesn't resolve itself until 2030. There is a great deal of resonance with 2030, because when you look at the arc of the outer planets, for example, Uranus: It's in its final stages of Taurus. Uranus is the rebel planet that provokes us, often with sudden rude awakenings. Since 2018, Uranus has been in Taurus, shaking up our monetary systems and sparking conversations around bodily autonomy. We've had upheavals and disruptions around Roe v Wade, trans-rights and medical tyranny. We've seen upgraded values and increased bodily intelligence – as if our somatic senses are louder than ever. Uranus and Taurus are in detriment, and what that means is that the sign that the planet is in does not work at its best; and, in fact, it has almost a reverse effect. The last time Uranus was in Taurus was in the heart and the heat of WW2. And we can see, just by the news of the day and what's happening, there's a war going on in Ukraine; Russia's involved in that war; the EU and NATO are involved in that way. So, for all intents and purposes, it's a replay of WW2 [In other words, WW3 is on!?] with Uranus in Taurus. So, we have that on the table. Pluto will move into Aquarius on 20 January and will be there for the next 15 years, and Pluto in Aquarius was happening during the Revolutionary War. Pluto, the planet of the underworld, continues to awaken through its transit

through Aquarius, with the opportunity to use technology for both collective advancement and detriment, as quantum leaps forward catalyse us into an era eerily reminiscent of a science fiction film. Hidden technology operating behind the scenes comes to light, as the world confronts the looming superpowers of Al and mass surveillance. However, Pluto in Aquarius grants freedom of information, potentially letting people on the fringes of society come into power. It is the end of the predictable, as 2025 is the grand finale before the rise of a new world [New World Order?!]."

> XX Despite the deal taking effect, 19 Palestinians killed, 36 wounded by Israeli strikes since first moments of scheduled ceasefire.

"Is It a Real Ceasefire or Only a Scam? - What concessions did Steve Witkoff offer to Netanyahu?" - Philip Giraldi argues Israel will strike as hard a bargain on the ceasefire as it can, creating conditions that will enable it to back out and resume military operations after claiming violations by Hamas; thereby, continuing hostilities while still obtaining the release of its hostages, which would be a boost for Netanyahu.

(Excerpts:) "Given the history of the various Middle Eastern peace proposals of one kind or another that have briefly raised their heads only to die ingloriously, it would perhaps be wise to consider the latest Israel-Gaza ceasefire...a work in progress. And maybe not even really in progress, due to likely hidden agendas and understandings that might run counter to what is being put down on paper...possible commitments to Israel by the United States that will give Prime Minister Benjamin Netanyahu options that will enable him to resume hostilities by citing Hamas violations of details in the ceasefire terms, whether they have actually occurred or not...I rather choose to believe that Witkoff offered Netanyahu a stick and a carrot. The prime minister is in deep trouble with his own governing coalition, most particularly the factions led by Itamar Ben Gvir and Bezalel Smotrich, who reject any ceasefire until Hamas is destroyed completely, but it now appears that even if they resign from the government they will not choose to bring down Netanyahu... US might look the other way if Gaza itself might be resettled with Israeli Jewish settlers, eliminating any return home for <u>Gazans</u>. Convincing the settler movement to stay positively engaged with what is about to happen could be crucial to Netanyahu's survival...the Trump Administration has reportedly agreed to remove commercial US sanctions that were initiated in November 2021 on the Israeli spy company NSO Group and its

'maliciously targetable' military-grade Pegasus spyware [The second largest statue in the <u>USA</u> is "<u>Pegasus</u> and Dragon"—Pegasus is 33.4 m (110 ft) in height; the dragon is 15.2 m (50 ft) in height. DYOR for more info.]...In practical terms, the 'legalization' of Pegasus means that the FBI and NSA will be able to use it to increase its spying...The freeing up of Pegasus is a big deal as it is a major money earner and source of top-level intelligence for the Israeli government and its security services. If my instincts on this are correct, Israel will strike as hard a bargain on the ceasefire as it possibly can, creating conditions or interpretations that will enable it to back out and resume military operations after claiming mythical violations on the part of Hamas.":

And <u>they will get Trump to hand them another prize in his second term, whether that be another set of death shots, digital IDs for all, or the next big World War...Most of those in the billionaire class see themselves as above petty politics. They know they can cozy up and get the ear of whoever is in office, whether it be Donald Trump or Joe Biden. This has been clearly evident over the past several weeks. > We've all seen it, the delites' war on food, such as eggs, dairy, chicken, etc. So why are they now going after blueberries? Here are some quotes from one of

my most favourite health-&-wellbeing books, that I tapped into 20 years ago, "The Color Code - A Revolutionary Eating Plan for Optimum Health", which, imo, point to that why! (Excerpts from pages 151-155): "More than any other color, blue means stress reduction. In the ORAC (Oxygen Radical Absorbance Capacity) tests at Tufts, blue foods quenched more free radicals than any other foods. Blueberries and blackberries [Both of which are currently going gangbusters in my totally organic, spray-free garden!] were clear winners among fresh fruits...That's at least in part because they deliver such intense dose of protective anthocyanin pigments...(blueberries are) a virtual storehouse of antioxidant and anti-inflammatory compounds...They don't 'merely' help prevent delines in old age; they actually appear to reverse some aspects of brain aging...they are the undisputed antioxidant champions among fresh fruits and vegetables...blueberries beat out about 50 other fresh fruits and vegetables...The awesome antioxidant power of blueberries comes from two main sources...one is chlorogenic acid, which is among the cancer fighters in tomatoes and bell peppers...(and secondly) the anthocyanin pigments that give blueberries their intense color...in some fruits, you'll find 3, 4, perhaps 5 types of anthocyanins...blueberries can have as many as 25 or 30...all these antioxidants and anti-inflammatories may make blueberries one of the best foods for protecting the brain as we age."

"Fungus spreading worldwide could cause the EXTINCTION of blueberries" (Excerpts:) "A powdery mildew caused by Erysiphe vaccinii is threatening blueberry crops worldwide, endangering yields, farmer livelihoods and food security. The fungus, originating in the eastern U.S. [Bio-lab enhanced?], has spread to major blueberry-producing regions like China, Mexico, Morocco, Peru and Portugal through the global trade of plant material...The disease manifests as a white, powdery coating on blueberry plants, sapping their nutrients and stunting their growth.
